SUPPLEMENT TO REQUEST FOR WAIVER OF SECTION 20.18(h)(1)(i)(A)

Missouri RSA 5 Partnership d/b/a Chariton Valley Wireless Services (“Chariton Valley”), by its attorneys, hereby supplements its pending Request for Waiver of Section 20.18(h)(1)(i)(A) filed January 17, 2012 (“Request”) to provide the Federal Communications Commission (“FCC” or “Commission”) with an update regarding the deployment of Chariton Valley’s Code Division Multiple Access (“CDMA”) and Long Term Evolution (“LTE”) networks and the transition of Chariton Valley’s customers from its Global System for Mobile Communications (“GSM”) network to the CDMA network. The Request seeks a waiver of the requirement that licensees utilizing network-based location technologies meet the first applicable Enhanced 911 (“E911”) location accuracy benchmark by January 18, 2012.

At the time Chariton Valley filed the Request, it anticipated that it would commercially launch its CDMA network and begin transitioning customers as of March of 2012. **[BEGIN CONFIDENTIAL INFORMATION]**

[END CONFIDENTIAL

INFORMATION]

As detailed in the Request, by transitioning to CDMA, Chariton Valley anticipates that it will be able to meet or exceed future E911 location accuracy benchmarks through a blending of handset and network-based data, or exclusively through handset-based data. Based on preliminary tests, Chariton Valley anticipates that its CDMA network, which utilizes a handset-based solution, will meet the January 18, 2013 handset accuracy requirements.

[intentionally left blank]

As further supported by the supplementary information provided herein, Chariton Valley requests that the Commission grant the Request and waive Section 20.18(h)(1) of the rules to the extent requested therein.

Respectfully submitted,

Missouri RSA 5 Partnership
d/b/a Chariton Valley Wireless Services
